

Trust me; this is definitely the fastest way to get there!

## Featured Positions

### Biotechnology, Qualified Attorney, London

A key role at the heart of an expanding and recession-proof international practice. You will benefit from a great deal of autonomy, a healthy budget and a nice volume of existing work. Build on your experience and realise your aspirations based on what you deserve, not on your management of politics. Forward-thinking attorneys who speak their mind are welcomed, and for a highly competitive remuneration at that! Up to £75,000.

### 4G Mobile Technology, Patent Attorney, Any Level, London

With a client portfolio made up of leading international companies, this private practice at the forefront of the wireless sector offers a great place to put your technical prowess to best use. Whether you are a trainee or a highly experienced patent attorney, this role (and accompanying generous salary) will definitely expand your horizons.

## Other Opportunities:

### Electronics and Business Development, Qualified, Manchester

You have an engineering or electronics background and enjoy working with high quality direct clients. This role with a major player in the IP sector will make use of your business development skills; you will enjoy being part of a small team to build a client base and profile of your own. £75,000 - £120,000.

### Senior Associate, Electronics/Mechanical, London

Work for forward thinking, culturally open firm and deal with agencies from all over the world. Provide consultative, strategic advice, as well as enjoying considerable oppositions work. A varied and challenging role with great potential for career progression, as the firm is expanding rapidly. Would suit an attorney who loves to network and deal with complex legal issues. £70-£95,000.

### Telecommunications In-house, European Qualified, South East England

A chance to go corporate. This leading telecommunications company is looking for a qualified European Patent Attorney with an appetite for oppositions, patent strategy, and litigation. A tasty pay check with international travel and relocation potential to boot. £65-£75,000 + fantastic benefits package.

### Biotechnology Qualified Patent Attorney, Manchester

Work with a leading international private practice that is steadily expanding its reach. The role would suit a candidate who is passionate about growing a practice and developing a client base in Manchester, but fear not: the firm has an abundance of existing work in electronics to sustain a new hire. Remuneration: anywhere between £70 and £120,000.

### Electro Mechanics, Qualified Patent Attorney, London

Know your electromechanical stuff? This position requires an exceptional candidate who offers the best of both worlds. Would suit either an attorney with an electronics/electrical engineering background but with an interest in mechanical or a physics/mechanical engineering background with an interest in electronics. Up to £72,000.

### Biotechnology, Finalist/Newly Qualified Patent Attorney, London

Get the most from your technical expertise by taking on this role in a practice with a significant reputation in biotechnology. You will deal with a considerable volume of high quality work, get variety, and enjoy support from a great team of well-regarded professionals. Up to £68,000.

### Electronics, Part Qualified Patent Attorney, London

Great training and support, diverse and international clients. This firm can give you a huge range of possibilities for your future. The role will suit candidates with 2 – 4 years experience. You will enjoy early responsibility and autonomy whilst receiving plenty of support from your colleagues. The firm is open to broader electronics backgrounds and offers remuneration above the norm. £35-£45,000.

### Electronics, Partnership Potential, London

Qualified attorney required for this well-renowned private practice. They have plenty of work from appealing clients to give you but would also expect you to hold your own and demonstrate the potential to be a future chief in the practice. In time, build your own team and develop your own business opportunities.

### Electronics, Qualified Patent Attorney/Partner Designate, Scotland

How lovely would it be to live by a loch... to escape the London hustle and bustle... but surely your career will suffer from such a hedonistic move? Wrong! This position with international scope in a growing firm is just as challenging and vibrant as anything you will find in London. The role offers fantastic scope for career progression. Give your dream a chance!

### Electronics, Qualified Patent Attorney, London

A quality firm that only hires quality people, this client has an exemplary reputation in the IP world. The role will see you dealing with a varied client base in a commercially minded environment. Most work is direct and from large well known corporations across a range of technology but particularly mobile communications. Up to £70,000.
